

Mackay Regional Council for Social Development Ltd (MRCSD)

## Strategic Planning Across the Region

**MRCSD** is a community development organisation committed to enhancing the capacity of individuals and groups across the region to address the issues that disadvantage them.

MRCSD's strategic plan is about meeting the needs of people in local communities. To do this, we need to hear about each local community's strengths, issues and concerns.

Public forums, group meetings and individual interviews will be conducted across the Isaac, Whitsunday and Mackay regional council areas to hear your voice. These meetings will focus on:

- Who is MRCSD? What do they do?
- What are key issues in your local area?
- How can MRCSD work with you to address these issues?

### Who should attend?

- Any interested community members
- Staff and committee of community organisations
- Government representatives
- Industry representatives
